

MedXpress Specialty Registry

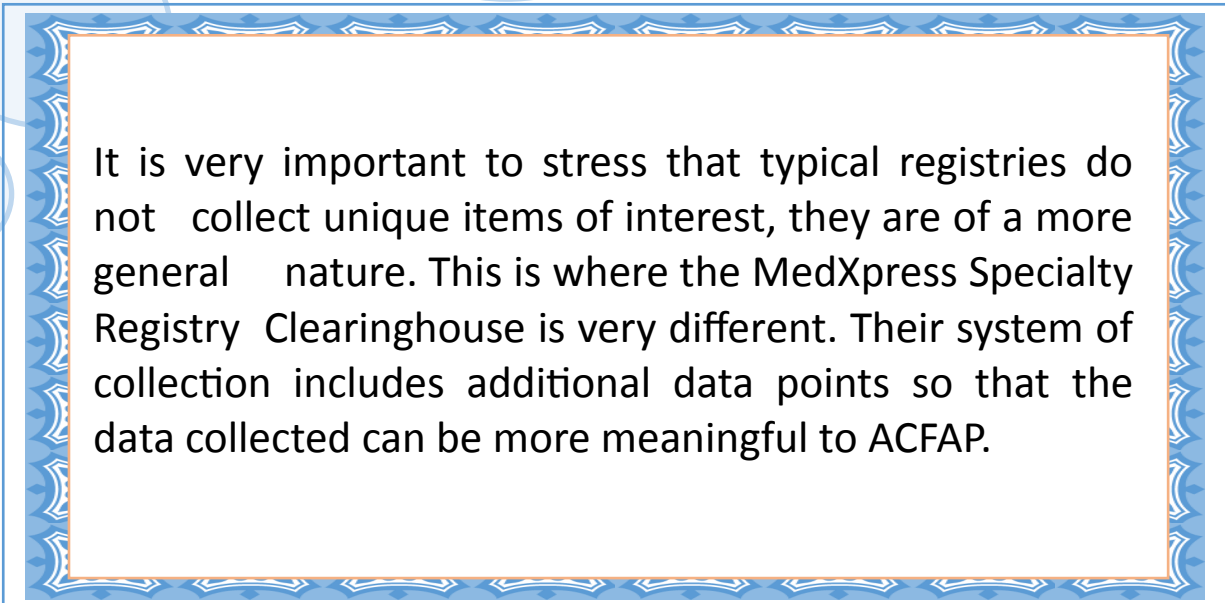

The American College of Foot and Ankle Pediatrics (ACFAP) has appointed the MedXpress Specialty Registry Clearinghouse to be a specialized registry for collecting specialty specific data. Members of ACFAP who register with MedXpress will be able to begin reporting clinical data regarding specific types of visits. This data will be available to allow ACFAP to analyze the data and publish guidelines based upon evidence based medicine.

These guidelines will enhance patient care in treatment of the Pediatric flat foot and warts in children. Data is expected to be submitted on an ongoing basis from thousands of Podiatrists nationwide who treat patients under age 18 for their foot and ankle problems and we are waiting to start receiving and analyzing this data.

Data is expected to be submitted on an ongoing basis from **thousands** of Podiatrists nationwide who treat patients under age 18 for their foot and ankle problems and we are waiting to start receiving and analyzing this data.

It is very important to stress that typical registries do not collect unique items of interest, they are of a more general nature. This is where the MedXpress Specialty Registry Clearinghouse is very different. Their system of collection includes additional data points so that the data collected can be more meaningful to ACFAP.

The Sammy Systems

TRAKnet[®] | Solutions

***MEDXPRESS
SPECIALTY
REGISTRY***

The MedXpress Specialty Registry Clearing House is a division of ICS Software, Ltd. – a company with over 30 years of service to Podiatry. They are committed to working with ACFAP and they welcome any and all Certified software vendors to participate in help making the profession better. So far, users of The Sammy Systems and TRAKnet have signed on.

Doctors using other EHR systems should speak with their vendor, request they contact ICS Software to get onboard with the process of submitting data to the ACFAP registry. ICS Software is committed to working with every vendor who wishes to allow their users to submit data to the ACFAP registry.

Have your vendor call them at **877-624-3250**
