

What is ACFAP?

The American College of Foot and Ankle Pediatrics is the American Podiatric Medical Association's only recognized group of experts in the subspecialty of Podopediatrics. As an affiliate clinical interest group, under the APMA, our goal is to educate both our colleagues and the general public on the importance of caring for children's feet.

Mission Statement

The American College of Foot and Ankle Pediatrics strives to disseminate new and advanced information on the latest techniques in pediatric foot and ankle care. This is done through our participation in seminars, lectures, publications and digital media.

What we do

We dispense information to the public on the proper care of their child's feet. We promote commitment to, and excellence in, the medical and surgical management of pediatric foot and ankle pathologies.
